

SERVICE OPPORTUNITIES WITH x2VOL

Service has never been more important, and students need an easy way to find virtual and low contact service opportunities during this time!

x2VOL makes finding service opportunities easy:

1.

Service leaders can post service opportunities through their admin portal

2.

Local nonprofits can post opportunities in their free nonprofit x2VOL account for surrounding schools to view

3.

Students can find service opportunities on their own (outside of x2VOL), log their experience and obtain verification

4.

x2VOL frequently shares virtual and low contact service opportunities through blog posts and social media

After serving, students log their hours in x2VOL, write a reflection on their experience, receive digital verification by a service supervisor, and finally receive approval for credit by their school's x2VOL service leader.
